

# AGESI COMMITMENTS

## Lead with Vision and Action

Champion an Africa where prosperity and sustainability thrive together. Operating as a “do-tank”, turning high-level ambitions into tangible results.

## Empower African Leadership

Equip leaders across government, business, and civil society with tools, insights, and networks. Deliver executive training rooted in African realities and future-ready principles.

## Mobilize and De-risk Climate Finance

Unlock domestic and international capital for green infrastructure and innovation. Build bankable project pipelines and foster public-private partnerships.

## Shape Policy that Works

Provide evidence-backed, practical policy advisory to guide transformative solutions. Influence national, regional, and continental climate agendas.

## Drive Inclusive Growth

Support businesses and sectors that create jobs, dignity, and real community impact. Ensure solutions are locally driven, context-specific, and globally competitive.

## Champion African-led Solutions

Elevate homegrown expertise through partnerships with African universities, think tanks, and innovators. Prioritize context driven strategies that reflect Africa's diversity and strengths.

## Foster Collaboration and Trust

Serve as a neutral convening platform for ministries, financiers, development partners, and academia. Promote transparency, alignment, and coordination in green transition efforts.

## Accelerate Africa's Green Transition

Act with urgency to bridge the gap between ideas and implementation. Inspire collective action to make Africa a leader in the global sustainability movement.
